

Teacher & student guidelines

- This checklist is private. Do not post scores, read numbers aloud, or rank the class.
- Students compare only to their own earlier month — never to a classmate.
- Fitness is one piece of PEW Active Living. Report effort, safety, and growth — not who 'won' a station.
- Stop any station that causes sharp pain. Soreness from trying is different from injury — tell the teacher.
- Modifications are success: march instead of skip, knee plank instead of full plank, walk–jog instead of run.
- Grades 1–2: teacher or buddy may help count. Keep bouts short (15–30 seconds).
- Grades 3–4: self-count with a quiet voice. Teacher dates the sheet.
- Grades 5–6: self-count; optional one personal goal written in private.
- Use one sheet per student per month, or keep a folder and tick the month row on a year card.
- Return sheets to the student or a locked file at year-end. Do not display them.

Standard stations (safe for Grades 1–6)

Skip / march	30 seconds max. Rope optional. March in place is a full success.
Shuttle	Two lines 4–8 m apart. Easy pace. Freeze on the whistle.
Sit-and-reach	Seated, slow reach. No bouncing. Fingers toward toes is enough.
Hold	Knee plank, wall sit, or still shape — 10–20 seconds.
Pulse check	Two fingers on neck or wrist. Count 15 seconds after activity.
Skill count	Dribble, wall-pass, stick-handle, or catch–throw — private count only.

Student folder label (optional)
