

Teacher & student guidelines

- Private record only. Do not post scores, read numbers aloud, or rank the class.
- Students compare only to their own earlier month — never to a classmate.
- Stop any station that causes sharp pain. Tell the teacher.
- Modifications are success: march instead of skip, knee plank, walk–jog instead of run.
- Grades 1–2: teacher may help count. Short bouts (15–30 seconds).
- Grades 3–4: quiet self-count. Grades 5–6: self-count; optional private goal.
- One sheet per student per month. Teacher dates and initials. Keep sheets private.

How to do the standard stations

Pulse check	Stand still after activity. Two fingers on neck or wrist (not thumb). Count beats for 15 seconds. Write the number privately.
Skip / march	30 seconds. Rope optional. Soft landings. High-knee march or jump-the-river is full success.
Shuttle	Two lines 4–8 m apart. Easy walk–jog, touch, return. Freeze on the whistle. No racing.
Sit-and-reach	Sit, legs forward. Slow reach toward toes. No bouncing. Stop at a gentle stretch.
Hold	Knee plank, wall sit, or still shape 10–20 seconds. Steady breath. Lower if it hurts.
Skill count	Dribble, wall-pass, stick-handle, or catch–throw for 20–30 seconds. Private count only.
