

Teacher & student guidelines

- Private record only. Do not post scores, read numbers aloud, or rank the class.
- Students compare only to their own earlier month — never to a classmate.
- Stop any station that causes sharp pain. Tell the teacher.
- Modifications are success: march instead of skip, knee plank, walk–jog instead of run.
- Grades 1–2: teacher may help count. Short bouts (15–30 seconds).
- Grades 3–4: quiet self-count. Grades 5–6: self-count; optional private goal.
- One sheet per student per month. Teacher dates and initials. Keep sheets private.

How to do the standard stations

Pulse check	Stand still after activity. Two fingers on neck or wrist (not thumb). Count beats for 15 seconds. Write the number privately.
Skip / march	30 seconds. Rope optional. Soft landings. High-knee march or jump-the-river is full success.
Shuttle	Two lines 4–8 m apart. Easy walk–jog, touch, return. Freeze on the whistle. No racing.
Sit-and-reach	Sit, legs forward. Slow reach toward toes. No bouncing. Stop at a gentle stretch.
Hold	Knee plank, wall sit, still shape, balance, or parachute hold 10–20 seconds. Steady breath. Lower if it hurts.
Skill count	Dribble, wall-pass, stick-handle, catch–throw, keep-up, or underhand send for 20–30 seconds. Private count only.

Stations — how to do each one

☐ Pulse check

- After a short game or jog, stand still.
- Place two fingers on the side of your neck or on your wrist (not your thumb).
- When the teacher says “go,” count the beats for 15 seconds.
- Write the number on your sheet. Do not share it.

My count / note: _____ Felt: easy · just right · hard

☐ Skip or march

- Find a clear spot so your rope (if you use one) will not hit anyone.
- On “go,” skip for 30 seconds — or march in place with high knees if jumping is hard.
- Soft landings; eyes forward.
- Stop on the whistle. March counts as full success.

My count / note: _____ Felt: easy · just right · hard

☐ Shuttle

- Stand at one line or cone. Face the other line (about 4–8 m away).
- On “go,” walk or jog to the far line, touch the floor or cone, and return.
- Repeat at an easy pace until the teacher says freeze.
- No racing. Soft stops. Stay in your lane.

My count / note: _____ Felt: easy · just right · hard

☐ Sit-and-reach

- Sit on the floor with legs straight in front, feet soft (not pointed hard).
- Stack hands and slowly reach toward your toes — no bouncing.
- Hold a gentle stretch for about 5 seconds, then rest.
- Fingers toward toes is enough. Do not force past discomfort.

My count / note: _____ Felt: easy · just right · hard

☐ Hold / stillness

- Choose one: knee plank, wall sit, or a still gym shape the teacher shows.
- Hold with steady breath for up to 15 seconds.
- If you shake or feel sharp pain, lower down and rest.
- Stillness with control matters more than time.

My count / note: _____ Felt: easy · just right · hard

Grade band tips
